

## HL930A

## READY TO CHANGE YOUR WORLD

#### The HL930 Wheel Loader is part of Hyundai's brand new A-series:

a fresh generation of construction equipment that complies with the European Stage V emission levels. But it goes much further than that!

While fulfilling regulatory demands, Hyundai aimed for a ground-breaking level of customer satisfaction with maximum performance and productivity, better safety, more convenience and improved uptime management.

Featuring impressive power matched with carefully selected technologies that help you to work more efficiently and economically, this versatile loader opens up a world of new possibilities. It's time to experience the Hyundai Effect!

HYUNDAI HL930A WHEEL LOADER HL930A 5

#### **Productivity & Efficiency**

# TECHNOLOGIES DESIGNED TO BOOST YOUR PRODUCTIVITY

The HL930A is powered by a robust Stage V-certified engine designed to deliver maximum productivity and fuel savings while complying with the strict European Stage V emission requirements. Precise operating systems ensure you get the most out of the machine's impressive performance, including optimised power matching for the ultimate balance of torque and RPM. Additional control, monitoring and maintenance features help you to optimise efficiency and productivity every single day, on any worksite.

#### Engine

The reliable Cummins B4.5 Stage V engine delivers all the power you need to tackle heavy-duty work in extreme conditions. Like all A-Series machines, the HL930A features our all-in-one exhaust aftertreatment system which cuts emissions and operating costs. By removing the need for EGR, this system enhances reliability and simplifies maintenance.

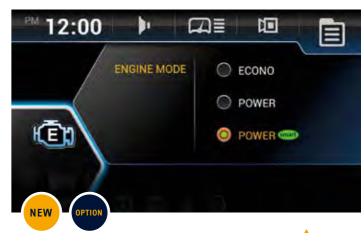

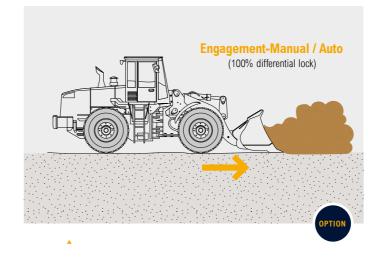

#### Weighing system

The highly accurate automatic/manual cumulative weighing system helps you to manage production more efficiently in any environment. For maximum precision and follow-up, a dedicated weighing screen can be displayed on the main monitor. The display includes weighing error icons for effective operator support.

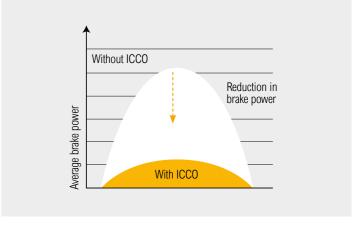

#### Smart power mode

This optional working mode reduces fuel consumption by adjusting the engine speed in heavy load work like digging. This function has two key benefits: it not only saves fuel while offering the same performance as Power mode, but also achieves a good balance between traction force and breakout force.

#### Hydraulic differential lock

The optional hydraulic locking differential prevents tyre slip for more secure operation as well as better productivity and fuel economy.

#### Intelligent Clutch Cut-Off (ICCO)

The ICCO function minimises loss of power in the torque converter and prevents excessive power use during braking. This reduces heat generation and wear on the brake disc.

#### Automatic engine shutdown

Adjustable to suit the operator's preference, this function shuts the engine down automatically when the machine is at rest to cut fuel consumption and prevent unnecessary emissions.

#### Eco Report

The Eco Report feature makes it easy for operators to develop efficient working habits by displaying real-time information about machine performance.

#### **Durability**

## **TOUGH AND DURABLE** TO SAFEGUARD YOUR PROFITS

To protect your business, you need to know that the investment you make today will help sustain your profits over the long term. That's why we prioritised reliability throughout the development of the HL930A, from design and manufacturing to quality control.

All components and operating systems have been optimised for endurance and tested rigorously on a range of work sites. The result is a tough, dependable workhorse that minimises downtime for repairs and maintenance so you can stay on schedule and protect your reputation.

"Every part of the machine is built for rock-solid dependability, even when the going gets tough."

#### Hydraulic hoses

High-grade hoses with outstanding resistance to heat and pressure provide maximum durability, even in rough working conditions.

The brake discs are manufactured using a durable sinter material to suppress the generation of heat and vibration. They extend the lifetime of the brakes, while also integrating a service-friendly design.

Simple and durable fully integrated "all-in-one" aftertreatment system.

HYUNDAI HL930A WHEEL LOADER

#### **Operator Comfort**

## A CABIN DESIGNED **AROUND YOU**

The HL930A cabin was designed to be a productive, stress-free working environment that fits every operator perfectly. Comfortable and spacious, it features state-of-the-art noise and vibration reduction technology, achieving a sound level of only 70 dB, one of the lowest in this machine all controls. A range of technologies enable easier machine monitoring, while the audio system includes a radio with a USB input to keep you entertained during your working day.

#### Adjustable seat and armrest

The HL930A has a large, comfortable seat with heating as standard. The seat and armrest are fully adjustable for added comfort.

#### Remote door control

As an option, the cabin door can be opened remotely for added convenience and safety.

#### Air compressor

An optional air compressor can be mounted in the cabin to help operators keep their workspace pleasant and comfortable.

#### Ride control system

An optional ride control system with a piston accumulator reduces pitching of the wheel loader body and bucket for more stable and comfortable operation. It also minimises spillover, adding to convenience and productivity.

#### Touchscreen monitor

The instrument panel is optimised to provide quick, easy access to machine status information as you work. It features a seven-inch touchscreen monitor for excellent legibility. You can connect your Android™ mobile device through Miracast™.

#### Soft end stop

The optional soft end stop function reduces the hydraulic speed of the cylinder as it reaches the end of its stroke. This lessens the shock load of the stroke for increased operating comfort and better material retention.

#### Instrument cluster

All the indicators displaying machine status are centralised in one cluster to enable easy, efficient control.

HYUNDAI HL930A WHEEL LOADER

#### **Safety**

## **CREATING A SAFE WORKING ENVIRONMENT**

Details can make a huge difference when it comes to safety, especially if you're working in rough conditions. It's not just a matter of complying with rules. The HL930A's safety features are designed and tested to meet your needs in the real world, even offering an extra pair of eyes with the optional Advanced Around View Monitoring (AAVM) and radar systems. By helping to ensure a calm, accident-free worksite, this wheel loader

"The camera and radar systems give me extra confidence and help me work more efficiently."

**Emergency stop switch** The engine can be shut down immediately using an emergency stop switch located at the base

**Advanced Around View Monitoring** (AAVM) and Intelligent Moving Object Detection (IMOD)

The optional Advanced Around View Monitoring (AAVM) system gives you a 360° overview of your immediate working environment. It also includes Intelligent Moving Object Detection (IMOD) technology that senses and warns you when people or objects come within five metres of the machine.

Seat belt warning alarm Operators are reminded to fasten their safety belt by an audible and visible alarm.

The optional radar system detects obstacles behind the machine day and night, with no blind spots. The distance between the obstacle and the loader is displayed on the secondary monitor.

Foldable side mirror The side mirror is easy to adjust for optimal visibility and can be folded away to prevent damage during transportation.

HYUNDAI HL930A WHEEL LOADER HL930A 1

#### **Serviceability & Connectivity**

# ADVANCED DIAGNOSTICS AND SERVICING SUPPORT

The peace of mind that comes with quick, low-effort servicing is also part of the Hyundai Effect. The HL930A is designed to make maintenance as convenient as possible. All components and materials have been optimised to ensure a trouble-free life with minimal maintenance. Hyundai's innovative Hi MATE telematics system enables full monitoring of machine activity and performance. Maximum connectivity is integrated to help you create a smart construction site and protect your profitability.

#### Auto greasing system

With the optional auto greasing system, grease is applied to lubrication points automatically when needed. The correct dosing is ensured and lubricant is applied uniformly, reducing grease consumption and eliminating waste.

#### Extended fuel filter lifetime

The fuel filter service interval has been increased from 500 hours to 1,000 hours.

#### Airco filters

The air conditioning uses a 2-stage filtration system allowing easy replacement of the filters.

#### **Cooling system**

The HL930A has dependable wide-core and fin coolers that prevent performance degradation caused by contamination.

On top, it is equipped with a regulated, automatic/manual reversible fan.

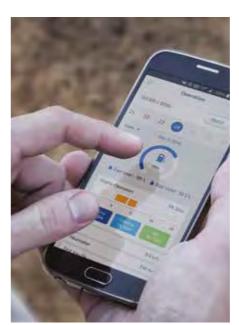

#### ow-maintenance DPF

DPF cleaning is only required if alerted by a fault indication, eliminating the need for regular ash cleaning intervals.

## Boost efficiency and performance

For maximum convenience and security, the HL930A features Hyundai's exclusive Hi MATE remote fleet management system, which uses mobile data technology to provide the highest level of service and support. You can monitor your equipment wherever you are via a dedicated website or mobile app, with access to working parameters like total engine hours, machine utilisation, actual performed working hours, fuel consumption and machine location.

#### ECD (Engine Connected Diagnostics)

ECD provides troubleshooting advice as well as tailored servicing and parts support from Cummins Quick Serve. Service technicians are supported with remote diagnostics reports allowing them to prepare for site visits and bring the right tools.

#### Monitor your machines

Hi MATE's real-time location information allows better, more convenient monitoring of your equipment. Just log onto the Hi MATE website or mobile app to see your machines at any time, from any location. Receive data online, by e-mail or directly on your mobile device.

#### Improve security

Protect your equipment from theft or unauthorised usage. Hi MATE's geofencing alerts notify you automatically when a machine leaves a predetermined zone. HYUNDAI HL930A WHEEL LOADER HL930A WHEEL LOADER

#### **Parts & Warranties**

# HYUNDAI GENUINE PARTS AND WARRANTIES: THE BEST WAY TO PROTECT YOUR INVESTMENT

Hyundai Genuine parts, accessories and warranty programmes are specially designed to keep your machine covered. They increase uptime and maintain the performance, comfort, and convenience that are built into your equipment.

## A network you can rely on

Hyundai Construction Equipment Europe prioritises quick, reliable intervention to keep your equipment running reliably. In the 13000 m² warehouse, Hyundai covers over 96% of all Genuine Parts. With one of Europe's most advanced automated warehousing systems, we are able to maintain availability and efficient delivery of all our Genuine Parts. Moreover, we guarantee a 24-hour delivery service across our European dealer network.

#### **Fuel filters**

Hyundai fuel filters provide the right degree of filtration to keep your engine clean. They are designed to meet and exceed the engine manufacturer's prerequisites for water separation and dirt filtration, prolonging the life of your engine.

#### Hyundai Genuine parts

Hyundai Genuine parts have the same design as those installed when your machine left the factory. They are subjected to rigorous quality inspections and tests to make sure they meet Hyundai's strict requirements for quality and durability. As well as minimising downtime, this helps to ensure peak performance on every task.

#### Aftermarket kits

You can order Hyundai aftermarket kits via your dealer. This AAVM system for example, improves safety in and around your working environment at all times.

#### Hyundai warranties

Our warranties are also designed to give you the cover you need to build your business with confidence and peace of mind.

#### **Standard warranties**

We offer standard warranty coverages for all wheel loaders. Next to this standard coverage, optional and extended warranty periods are available, so you can benefit from full warranty coverage for longer, and even over the full lifetime of the machines. Please discuss the optimal solution for your needs with your local Hyundai dealer.

#### **Extended warranties**

Our extended warranties help you maintain full control over your operating costs. If you combine an extended warranty programme with a tailored maintenance contract, you can completely avoid unexpected costs. HYUNDAI HL930A WHEEL LOADER HL930A 17

#### Walk-around

## **HL930A**

#### **Productivity & Efficiency** • EU Stage V engine

- Eco Report Smart Power mode
- Hydraulic differential lock
- Intelligent Clutch Cut-off (ICCO)

#### **Durability**

- Optimised axles
- Sinter brake disc
- High grade hoses
- All-in-one aftertreatment system

#### **Operator Comfort**

- Spacious soundproofed cabin
- Fully adjustable seat and armrest
- Air compressor
- Remote door control
- · Ride control system
- · Wide touchscreen monitor

#### Serviceability

- Low-maintenance DPF
- ECD (Engine Connected Diagnostics) NEW
- Hi-MATE telematic system
- · Easy filter replacement
- · Wide core & fin radiator
- Auto greasing system
- · Longer-lasting fuel filter
- Reversible fan

#### Safety

- Emergency stop switch
- Seat belt warning alarm
- Radar rear detection
- · AAVM camera system
- IMOD (Intelligent Moving Object Detection)
- · Foldable side mirror

HYUNDAI HL930A WHEEL LOADER HL930A 1:

# READY TO CHANGE YOUR WORLD

Hyundai's A-Series wheel loaders are designed to create better conditions for operators and deliver the ultimate ownership experience. Every detail is carefully fine-tuned to match your needs in the field, including better safety and comfort, higher productivity, maximum uptime and easy servicing. This is all part of the Hyundai Effect.
